In the decade from 1880 to 1890 the number of hands employed in American silk mills increased

66.77

per cent, but the wages paid increased 115.16

per cent. This is the way in which Protection has benefited silk workers.

### SYMPTOMATIC.

*Chicago Tribune*.—There is a man in California who can jump backward over a horse. Democrat, of course.

### AVOIDING SOMETHING WORSE.

*Minneapolis Sentinel*.—But for the Sherman Law we should now be coining every month silver bullion costing \$20,000,000.

### NO TROUBLE NEED APPLY.

*Chicago Tribune*.—And the Star Spangled Banner in triumph shall wave while Most, Schwab and Altgeld continue to rave.

### REED RULES.

*Chicago Tribune*.—Tom Reed of Maine will be in the next Congress and so will his rules, if Congress concludes to get down to business.

### SURE ENOUGH!

*Minneapolis Sentinel*.—Why does Mr. Cleveland need courage for doing things which many other public men would do as a matter of course?

### THE CAUSE OF HIS PERPLEXITY.

*Chicago Tribune*.—Cleveland knows how Republicans in Congress will vote, but how Democrats are going to vote is an uncertain quantity.

### A STRIKING DISTINCTION.

*Chicago Mail*.—One difference between Whitlock Reid and John J. Ingalls is that the former knows how to edit a paper and the latter cannot even edit his jaw.

### THE NEW ANARCHISTIC MOSES.

*Chicago Tribune*.—Governor Altgeld will find that when American newspapers start after a scamp the size of his get it, no matter how tough the hide of the scamp may be.

### HE IS ALWAYS INSTRUCTIVE, TOO.

*Good Democrat*.—Sherman is doing a good deal of talking on the silver problem, but he is justified by the fact that he probably knows more about it than any other man in the country.

### THE WILDCAT MENACE.

*St. Louis Globe Democrat*.—Nobody has yet given any good reason why the bank currency should be revived, while many reasons can be given why such currency would be a discredit and an injury to the country.

### NO CAUSE FOR ALARM.

*Boston Journal*.—It is warm weather talk, and very silly warm weather talk, at that, which suggests the possibility of any coalition between the Democrats and Republicans in the House. Nothing will be done to disturb the Populist-Democratic alliance.

### THEY ALWAYS FOLLOW.

*New York Press*.—Thomas B. Reed should find refreshment this hot weather in looking over the files of *The Congressional Record* and reading the fiery denunciations of "carism" by Democratic members who will hasten to vote next month for the Reed rules.

### A REPUBLICAN YEAR.

*Boston Journal*.—Our Democratic contemporaries are remarking the large number of gubernatorial aspirants on the Republican side this year. It seems to be instinctively recognized on both sides that it is going to be very much of a Republican year in Massachusetts.

### THE "ROBBERS" TARIFF.

*Boston Journal*.—During the eleven months ending May 31, 1893, the imports which came without paying a dollar of duty amounted to \$475,000,000, while the dutiable imports amounted to only \$89,000,000. And this under a law which the Democrats charge with "strangling trade."

### SOME ADMINISTRATION JUNKETS.

*Philadelphia Press*.—Secretary Herbert and family are about to "inspect" the Navy yard on board the *Dolphin*. Secretary Hoke Smith and family are getting acquainted with the West through the kindness of the railroads in transporting their gratis in a private car. Commissioner of Pacific Railroads Wade Hampton and relatives, to the number of a dozen, are "inspecting" the Pacific Railroads and the Yellowstone Park in the car of one of the officials of the Northern Pacific, and how many other members of the Administration are dead-heading it over the country with their families remains to be told. There is nothing like a "reform."

JOLLY Jim Mannen was the innocent hero of a singular coincidence recently. A short time ago it was reported on the streets of Mayville that James P. Mannen of Dover had dropped dead, with heart disease. Report soon reached the ears of the deceased's sister, Mrs. Arthur Haughey, who resides near Fern Hill. Mrs. Haughey was greatly distressed over the occurrence and went immediately to Mayville and invested several dollars in a beautiful floral tribute as a token of sisterly affection to the memory of a dear departed brother. The floral offering was duly delivered by the florist, but we are pleased to say that it never decorated Jim's grave, for Mrs. Haughey soon learned that her brother had not died, but was on foot. Mrs. Haughey will hereafter be more careful in securing funeral offerings.—*Deer News*.

**The Business Way!**

The business way to advertise is to take space by the year, take pains with your advertisements in making them attractive, and change them at least as often as once a month.  
You may think there are seasons when you don't need to advertise.  
We have never seen that time.  
Use the dull seasons for looking over your stock and running off that which is becoming out of style or unfashionable, and giving bargains.  
If you have space by the year, it costs you no more, and you can make it profitable by converting unsalable goods into money, and reinvesting the money in those things which are salable.

The wages of the workmen of the big Otis Steel Company, Cleveland, O., have been reduced ten to twenty per cent. They are realizing the fact that there has been a change.

The biggest fools appear to be the free silver fools. A few nights ago a party of them in Arizona burned President Cleveland in effigy because he is opposed to their nonsensical notions. That will hurt them far more than it will the President.

The Democratic demagogues promised the people that the restoration of their party to complete control of the National Government would mean increased prosperity. The people took the demagogues at their word, and the people have today one billion dollars less personal property than they had on March 4th.

It is stated at the Treasury Department that the advisability of withdrawing from the public the statements heretofore given out through the press of the amount of bullion purchased and the prices paid for it is under consideration. It should be done by all means. As this is a Democratic Administration and that doesn't know what it is doing what it oughtn't to inform the public of what is going on.

SAY, BOBBY, you fellow that edits The Bulletin down on Second street! You have been doing an immense amount of howling about a "Chinese wall" and "markets of the world." The exports of wheat the past week were larger than they have been, with four exceptions, for any single week in the history of the export trade of the United States. This doesn't look very much like the McKinley Tariff was a "Chinese wall" to shut the United States off from the "markets of the world," does it? We afraid our fine-spun theories have been knocked into a cocked hat by this great and glorious Democratic Administration!

## RUN DOWN.

A Train Crashes Into a Crowded Street Car.

Three Persons Killed and a Number of Others Injured.

The Accident Occurs at a Dangerous Crossing in Chicago. The Street Car Hit by Fully Thirty Feet From the Point Where It Was Struck.

CHICAGO, July 15.—An incoming passenger train on the Grand Trunk road ran down a crowded street car Monday night, killing three people and injuring a number of others. The dead are Thomas Perkins, Margaret Murphy and an unidentified boy. The injured are Wm. Pahlman, left leg broken and internally injured; may die; Mrs. Jas. Sanderson, head and body bruised; J. G. Smith, internally injured, and skull fractured, may die; Mrs. Celia Mitchell, bruised about the body; Mrs. S. A. Loe, bruised about the head and body; Mrs. Vanderburg, head and body bruised; Frank Vanderberg, her three-year-old son, head cut and body bruised; Jennie Blackie, head and shoulders cut.

The collision occurred at the Forty-ninth street crossing, which is a narrow gauge crossing and has always been regarded as a dangerous crossing. A long freight train, going west, had just passed, and the trolleyman, George Barnett, had raised the gates. The train was taken as a signal that the way was clear, and Driver Steinacker started to drive across the tracks. The passenger train was rapidly coming from the west, however, and just as the car reached the track, it struck it squarely in the center. The car was turned end over end, and hurled fully thirty feet from the point where it was struck. Some of the passengers managed to save themselves by jumping, but the majority were caught. Perkins was frightfully mangled. A piece of timber was forced into his throat, breaking his jaw.

The passenger train was in charge of Conductor John Kern, Engineer E. W. Jones and Fireman James Campbell. Engineer Jones said that he did not see the street car until the horses were in front of the train, and then he could not possibly have stopped in time to avoid the accident. Police Captain Ward arrested Eugene Jones, Fireman Campbell, and a man named Hugh Hughes, who was riding in the cab of the engine. They will be held until after the coroner's inquest.

The tower man, George Barnett, who raised the gates and allowed the car to come upon the track, said: "I raised the gates after the freight train had gone west, and did not see the approaching passenger train until it was close upon the crossing. I lowered the gates, but it was too late then."

No New Case of Yellow Fever.

WASHINGTON, July 15.—Surgeon General Wyman, of the Marine hospital service, Monday received a telegram from Surgeon Ferry at Cape Charles, Va., stating that there was no new case of yellow fever on the island, and that the patients at the quarantine hospital were improving. The bulletin from the vessel was discharged Sunday. All the compartments were closed Monday, when in the afternoon they were thoroughly disinfected with sulphur dioxide. Bichloride of mercury being freely used.

Killed by Lightning.

ATLANTA, Ga., July 15.—At Cumberland Island, Corporal John W. Burleson, of the Marine volunteers, who are in camp there, was in his tent Sunday. Suddenly there was a blinding flash of lightning followed by a terrific crash of thunder, and his blinded comrades were horrified by seeing the body of Corporal Burleson dashed from the tent. The bolt struck the tent pole, and running down the pole, the young volunteer, tore his shoes off and buried him out of the tent a corpse.

WASHINGTON, July 15.—The cruiser Detroit was at Monday afternoon accepted by the navy department and will be put in commission on the 20th of July. The programme has not yet been arranged, but her first cruise. The date for the first trial of the cruiser Columbia has not been set, but will be about the 27th of this month.

Alenworth and Others to Be Indicted.

WASHINGTON, July 15.—J. H. Barrell, the latest witness summoned by the grand jury in the investigation of the recent disaster in the Ford's theater, was examined Monday. It is said that the indictments will be returned within the next two days against Alenworth and others in charge of the building.

Two Kansas City Banks Fail.

KANSAS CITY, Mo., July 15.—The Bank of Grand Avenue and the Missouri national bank failed Monday. They are both leading institutions. Nearly all the banks in the city were heavily drawn on last night by depositors, and for a time a panic reigned.

Wiped Out by a Typhoon.

GENEVA, July 15.—A terrible cyclone has completely wiped out the village of Engelberg, Canton Unterwalden. The ancient abbey, which has withstood the ravages of centuries was raised from the mountain, and several of the beautiful monies residing there narrowly escaped death.

Buying Silver.

WASHINGTON, July 15.—The treasury department was Monday offered 700,000 ounces of silver, but the price for the majority was too high. Only \$0.000 were offered at what the department considered a fair market price and that amount was purchased—\$0.000 ounces at \$0.75 and \$0.000 ounces at \$0.75.

## TO THE NORTH.

Preparations for Another Arctic Exploring Expedition.  
WASHINGTON, July 15.—Preparations are being made for another Arctic exploring expedition from this country. It is proposed, however, to make a search for the North Pole, but instead of undertaking so hazardous an expedition, the exploring party will confine itself to obtaining information concerning the unexplored territory north of Baffin bay and westward into Ellesmere land and Grinnell land. The expedition will be under the leadership of Mr. Robt. Stein, of the geological survey. Mr. Stein proposes to start with a party of not less than eight men, and will take a whaling steamer from St. Johns, in Alaska, to Jones sound.

Here a fireproof house will be erected and stocked with provisions enough to last two years. The course pursued by former explorers will not be changed and the party will follow the coast of Ellesmere land in a westwardly direction. Observations may be made with the most approved apparatus and the magnetic phenomena will be studied.

Most Inspectors Appointed.  
WASHINGTON, July 15.—Secretary Morton's effort to reduce the expenditures of his department by cutting off the inspectors most intended for export purposes has not been absolutely successful. Representative McGowan, of Chicago, called upon Secretary Morton and asked him to change his mind. The inspection of the meat that is sent abroad, Mr. McGowan declared, is necessary as the confidence of purchasers is to be retained, and on the part of the meat dealers of Chicago he urged the secretary to re-establish at once the system of careful inspection. In compliance with the request, and acting upon the recommendation of Mr. McGowan, Secretary Morton appointed Monday evening two inspectors for duty at Chicago.

The Alliance Goes to Corinto.

WASHINGTON, July 15.—Telegraphic orders have been sent to Commander Whiting, commander of the U. S. S. Alliance, now at Calla, Peru, to proceed with the vessel to Corinto, the port on the west coast of Nicaragua, nearest to Leon, where the latest revolution is at its height. Commander Whiting is instructed simply to use all possible dispatch in going to Corinto, and to protect American interests. It will take at least a week to make the trip.

The Scheme Disclosed.

ALBANY, N. Y., July 15.—Walter N. Thayer, warden of the Clinton prison, Monday related to the press a plot to escape of a number of long-term prisoners confined in his prison to gain their freedom, which included the cold-blooded murder of several prison guards. One who was asked to enter the plot refused and it was through him the prison authorities became aware of the desperate plan.

Will Soon Be Free.

COLUMBIA, O., July 15.—Gov. McKelvey Monday evening commuted the life sentence of Jonathan Whitaker, of Lorain county, to fourteen years' imprisonment. Whitaker was received at the penitentiary in 1870, when the latest revolution is at its height. His crime was the murder of his father.

A Second Comet.

SAN JOSE, Cal., July 15.—An important discovery regarding the comet has been made at Lick Observatory. Photographic plates reveal the fact that the comet is not alone in its glory, but has a companion. The second comet is enveloped in the tail of the first, and shows distinctly as a nebulous-like condensation.

Virtue of the Iowa Trooper.

ST. CINCINNATI, Ia., July 15.—Roy Keeler, one of the injured brought from Ponce de Leon at the Samaritan hospital Monday. His death, with that of August Meyer, at Ponce de Leon, makes the total fatalities of the Ponce de Leon tornado forty-nine, and that, with other points, seventy-four.

Probably Good Looking.

WOODS HOLE, Mass., July 15.—It was discovered Monday that James Woods, a wealthy New Yorker, has been systematically robbed by a pretty fellow named servant. The young lady was searched, with other servants, and over \$500 worth of jewelry and money was found. Jones refuses to prosecute.

J. M. LANE, Mayville, Ky.

In order to give sufficient space for the magnificent line of Fall Goods we have bought for the coming season, (we really think the best line ever shown in Mayville), we are compelled to enlarge our present quarters. We have secured the adjoining room, formerly occupied by the late W. T. McDaniel. Both rooms will be thrown into one. We will supply our enlarged room with new counters, shelves, tables and various fixtures, such as will make our house second to none in the state. To do this we must close out our present stock of goods at almost any sacrifice. We, therefore, organize a week's sale, commencing Tuesday morning, July 18th, and continuing until Saturday, July 22d. During the week we will sell our entire stock at just one-half of its regular value. Everything will go at fifty cents on the dollar. Here is an opportunity to secure immense bargains in Men's, Boys' and Children's Clothing, Hats, Shirts, in fact, everything that pertains to a first-class clothing house. Don't miss it.
